CHICAGO GRAIN MARKET.

Chicago, Ili., June 22—Marketing of new wheat gave the price of the cereal a final downward swine. It was a nervous, flighty session, however, with many a trader keeping an anxious eye on crop developments in North Duktoin. The close was 48-48-tower than last night. Corn finished 48-88-tower, cat 48-82-c. off, and provisions at 58-124c. decline.

Dun & Company's Review.

New York, June 23.—R. G. Dun & Company's weekly review of trade tomorrow will say:

The actual volume of husiness continues below producing capacity, and such improvement as is in evidence is slow. Yet the trend is unquestionably for the better, and the movement promises to quicken as the crops approach nearer to harvest. It is noticeable that the most optimistic trade reports come from those centres close to the main agricultural sections.

Further improvement appears in iron and steel at a time when quietness usually prevails, and the bookings of the leading producers are steadily increasing. The betterment in trade has extended to pig iron size, which has heretofore made a poor showing. Considerable animation is noted in fabricated and structural steel, with large purchases in prospect, while additional orders for about 26 000 tons of rails

shows the total visible is 2,591,357
bales, against 2,678,593 hast week and
2,571,508 hast year. Of this, the total
of American cotton is 1,477,357, against
1,553,893 hast week and 1,461,608 hast
year, and of all other kinds, including
Egypt, Brazil, India, etc., 1,114,000,
against 1,25,600 hast week and 1,110,000 hast year.
Of the world's visible supply of cotton, there is now affeat and held in
Great Britain and Continental Europe,
2,1541,000, against 1,307,000 hast year,
1,500 hast year, and in the United States,
3,65,000, against 482,000 hast year.
